Build Your Reputation Progress Chart

Remember you may not need to undertake every suggestion all at once.

You are only looking for a handful of people to care for, then you will be fully booked.

Turning work away can be really hard at times so it is best to just try and get enough work coming your way without having too much come your way.

Just action a few points and wait a little while to see if anything comes from it. If it doesn't, then action a few more ideas and so on.
