Dream Fund

So whilst you are getting into good habits of saving and not spending everything you earn.

Is there anything you dream of doing but never have the money to do it? Do you dream to go on a big holiday? Buy a house? Buy a horse!? Become debt free?

Well lets work towards that goal too!

Dream Fund

You can allocate a set amount of money to it each month and again set up a standing order/automatic payment, so the fund just begins to build.

Make The Most Of The Money

One of the major joys of being self employed is that you have a chance to earn a lot more money than being employed.

- You are in charge of your own workload
- You set your own rates

So make the most of the money that comes your way.
